CHAIRMAN'S REPORT

As anticipated last year, good utilisation of Stamp Capacity in the 2009 underwriting year combined with a very quiet US windstorm season to deliver an exceptionally high profit of over 60% of Stamp, and the 2010 year is also forecast to produce a strong profit, although not quite on the same scale as 2009. However, as Richard has said, 2011 saw a very high level of insured tornado and hail damage although it is hoped that the Syndicate can still produce a profit.

Following the release of updated modelling software, rates for US catastrophic exposures have improved, enhancing the value of Syndicate 6103 both in its own right and as a mechanism for managing gross exposures while preserving the balance in Syndicate 2791 as far as possible.

REPORT OF THE DIRECTORS OF THE MANAGING AGENT

The managing agent presents its report on the 2009 year of account of Syndicate 6103 as closed at 31 December 2011.

These accounts have been prepared in accordance with The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 and in accordance with the Lloyd's Syndicate Accounting Byelaw (No 8 of 2005). Separate annual accounts under UK GAAP on the calendar year results are available to all the syndicate's members (see pages 20 to 36).

The result for the closing year includes the profit and exchange differences arising from retranslation of the balance sheet, and the result for the closed year is identical to that which would have arisen under the former basis of syndicate accounting.

UNDERWRITER'S REPORT

2009 Year of Account

Capacity £39.4 million

All the syndicate's business was written by way of a 40% quota share of all US property catastrophe business (other than terrorism and retrocession business) written by Syndicate 2791. Worldwide business may be written, as long as the predominant exposure is the United States.

The 2009 year has closed with a profit of £24.3m after all members' personal expenses, equivalent to 61.5% of stamp capacity, compared with the forecast range of 52.5% to 62.5%. The closing rate of exchange was US\$1.55:£1. The RITC is with Syndicate 2791; following the commutation of the quota share reinsurance contract there will be no outstanding residual liability.

Utilisation of capacity

The final utilisation was 80% at closing rates of exchange. There was no reinsurance spend.

Performance review

Loss activity in 2009 was limited to a few mid-west tornado/hail events. The syndicate's maximum risk appetite was reached in most key zones.

2010 Year of Account Forecast

The percentage cession from Syndicate 2791 was reduced to 30% for the 2010 year of account. Our forecast range is a profit of 29% to 39% on Stamp Capacity after all expenses. Current utilisation is below 60% due to the rebasing of sterling under Lloyd's premium income monitoring rules from US\$1.99:1 in 2009 to US\$1.5:1. Although loss activity was light (17.7% incurred loss ratio at year end) the bottom-line return is somewhat diluted relative to 2009.

2011 Overview

A very pleasing 2009 gave way to much tougher conditions in 2010 and 2011. Although no major hurricanes struck the United States, 2011 experienced over US\$20bn of insured tornado/hail losses, by our estimation the worst year since 1974. The year-end incurred loss ratio was 53.8%. Utilisation will be slightly better than 2010, due to reinstatement premiums. Absent any further major US losses between now and July, the syndicate will be profitable.

2012 Trading Conditions

The plethora of international catastrophe events in 2010 and 2011 had a negligible impact on Syndicate 6103. Some new opportunities have arisen on worldwide protections, but most of the improvements have come from repriced regional accounts in the US. Coincidentally, a major third party catastrophe modelling firm has released its latest assessment of Atlantic hurricane risk, which we estimate to be on average 45% more conservative than the previous version, and most importantly within 2% of our own, unchanged internal model. Whereas much of the market, both buyer and seller, is now faced with a more onerous risk assessment, our competitive handicap has now been removed. Demand for cover is up, and pricing has improved accordingly.

The Future

Syndicate 6103 has proved to be a useful, accretive facility for the host Syndicate 2791, and profitable in its own right so far. As long as capital providers are willing, and the technical rate adequacy of the business is maintained, we continue to view the SPS mechanism as an intrinsic part of MAP's portfolio. Our only disappointment has been that, for the last two years, the syndicate has had to cease writing in areas where it has reached its maximum risk appetite, and so missed out on strongly priced business later in the year. Although the syndicate grew modestly for 2012, and the US dollar exchange rate was relaxed to US\$1.61:£1, it is likely this same phenomenon will occur again.

Analysis of premium written by syndicate classification

	Gross written £'000	Net written £'000
Property reinsurance	31,030	31,030

Investment Return

The investment return for the period was £1.67m. The average annual return on assets held over the last three years is 2.6%.

The syndicate operates on a funds withheld basis vis-à-vis Syndicate 2791, from which it accepts its business; the contract between the syndicates provides that the investment return receivable by Syndicate 6103 follows that achieved by Syndicate 2791 on its own funds, principally the Credit for Reinsurance Trust Fund in respect of the US Dollar balances. Where there have been creditors balances (arising out of Sterling funds advanced on behalf of the syndicate), the contract specifies that the relevant month's six-month duration Treasury Bill rate plus 1.5% per annum be used.

The Effect of Exchange Rates on the Distribution Account

As these accounts are reported over the three consecutive years from 2009 the effect of the GBP:US Dollar exchange rate has moved from an average of 1.57 during 2009 to a closing rate of 1.55 and this has resulted in a gain of £0.21m over the three year period.

2010 Year of Account Forecast

An estimate of the 2010 underwriting result as at 36 months is set out below:

	£'000
Stamp capacity	33,667
Gross premiums written	19,744
Net premiums written	19,744
Claims incurred – net of reinsurance	(4,071)
Net operating expenses	(987)
Investment return	600
Profit commission	(2,263)
Personal expenses	(197)
Estimate of profit for the year of account after personal expenses	12,825

Assumptions underlying the 2010 Estimated Result:

- (i) Syndicate expenses, incurred in the calendar year 2012 to be charged to the 2010 year of account, will continue the pattern of previous years as refined by current budgets.
- (ii) Exchange rates at 31 December 2012 will not be materially different from those at 31 December 2011.
- (iii) Investment returns attributable to 2010 during 2012 = 2.25% for all currencies.
- (iv) Claims will be paid in line with our expected development patterns.

Disclosure of Information to the Auditors

So far as each person who was a director of the managing agent at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditor in connection with its report, of which the auditor is unaware. Having made enquiries of fellow directors of the agency and the syndicate's auditor, each director has taken all the steps that he/she is obliged to take as a director in order to make himself/herself aware of any relevant audit information and to establish that the auditor is aware of that information.

STATEMENT OF MANAGING AGENT'S RESPONSIBILITIES

The Insurance Accounts Directive (Lloyd's Syndicates and Aggregate Accounts) Regulations 2008 ('the Lloyd's Regulations') require the managing agent to prepare syndicate underwriting year accounts for each syndicate in respect of any underwriting year which is being closed by reinsurance to close at 31 December. Detailed requirements in respect of the underwriting year accounts are set out in the Lloyd's Syndicate Accounting Byelaw (No 8 of 2005).

The managing agent must prepare the syndicate underwriting year accounts which give a true and fair view of the result of the closed year of account.

In preparing the syndicate underwriting year accounts, the managing agent is required to:

- select suitable accounting policies which are applied consistently and where there are items which affect more than one year of account, ensure a treatment which is equitable as between the members of the syndicate affected. In particular, the amount charged by way of premium in respect of the reinsurance to close shall, where the reinsuring members and reinsured members are members of the same syndicate for different years of account, be equitable as between them, having regard to the nature and amount of the liabilities reinsured;
- take into account all income and charges relating to a closed year of account without regard to the date of receipt or payment;
- make judgements and estimates that are reasonable and prudent; and
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in these underwriting year accounts.

The managing agent is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the syndicate and enable it to ensure that the syndicate underwriting year accounts comply with the Lloyd's Regulations. It is also responsible for safeguarding the assets of the syndicate and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

INDEPENDENT AUDITORS' REPORT

to the Members of Syndicate 6103 – 2009 Closed Year of Account

We have audited the syndicate underwriting year accounts for the 2009 year of account of syndicate 6103 for the three years ended 31 December 2011 which comprise the Profit and Loss Account, the Balance Sheet, the Cash Flow Statement, the related notes 1 to 16 and the Statement of Managing Agent's Responsibilities. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the syndicate's members, as a body, in accordance with The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008. Our audit work has been undertaken so that we might state to the syndicate's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the syndicate's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective Responsibilities of the Managing Agent and the Auditor

As explained more fully in the Statement of Managing Agent's Responsibilities set out on page 9, the managing agent is responsible for the preparation of the syndicate underwriting year accounts, under The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 and in accordance with the Lloyd's Syndicate Accounting Byelaw (no. 8 of 2005), which give a true and fair view. Our responsibility is to audit and express an opinion on the syndicate underwriting year accounts in accordance with applicable legal and regulatory requirements and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the Audit of the Syndicate Underwriting Year Accounts

An audit involves obtaining evidence about the amounts and disclosures in the syndicate underwriting year accounts sufficient to give reasonable assurance that the syndicate underwriting year accounts are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the syndicate's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the managing agent; and the overall presentation of the syndicate underwriting year accounts. In addition, we read all the financial and non-financial information in the Underwriting Year Report and Accounts to identify material inconsistencies with the audited underwriting year accounts. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on Syndicate Underwriting Year Accounts

In our opinion the syndicate underwriting year accounts:

- give a true and fair view of the profit for the 2009 closed year of account;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 and have been properly prepared in accordance with the Lloyd's Syndicate Accounting Byelaw (no. 8 of 2005).

Matters on Which We Are Required to Report by Exception

We have nothing to report in respect of the following matters where The Lloyd's Syndicate Accounting Byelaw (no. 8 of 2005) requires us to report to you if, in our opinion:

- the managing agent in respect of the syndicate has not kept proper accounting records; or
- the syndicate underwriting year accounts are not in agreement with the accounting records.

NOTES TO THE ACCOUNTS

2009 Closed Year of Account for the three years ended 31 December 2011

1. Basis of Preparation

These financial statements have been prepared under regulation 6 of The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 and in accordance with the Lloyd's Syndicate Accounting Byelaw (No. 8 of 2005) and applicable Accounting Standards in the United Kingdom and comply with the Statement of Recommended Practice on Accounting for Insurance Business issued in December 2005 (as amended in December 2006) by the Association of British Insurers.

The Lloyd's Syndicate Accounting Byelaw (No. 8 of 2005) requires the aggregation of movements in each of the three calendar years' for any Underwriting Year account. For 2009's Underwriting Year Distribution Account each calendar year result is aggregated using the relevant years' average rate for each item in the profit and loss account.

Members participate on a syndicate by reference to a year of account and each syndicate year of account is a separate annual venture. These accounts relate to the 2009 year of account which has been closed by reinsurance to close at 31 December 2011; consequently the balance sheet represents the assets and liabilities of the 2009 year of account and the profit and loss account and cash flow statement reflect the transactions for that year of account during the three year period until closure.

As each syndicate year of account is a separate annual venture, comparatives as required by FRS28 are not disclosed.

2. Accounting Policies

The underwriting accounts for each year of account are normally kept open for three years before the result on that year is determined. At the end of the three year period, outstanding liabilities can normally be determined with sufficient accuracy to permit the year of account to be closed by payment of a reinsurance to close premium.

Premiums written

Gross premiums are allocated to years of account on the basis of the inception date of the policy. Premiums exclude taxes and duties levied on them.

Premiums written are treated as fully earned.

Acquisition costs

The syndicate is not charged with acquisition costs and has no deferred acquisition costs.

Reinsurance premium ceded

The syndicate has no reinsurance protection.

Claims paid and related recoveries

Gross claims paid include internal and external claims settlement expenses and are attributed to the same year of account as the original premium for the underlying policy.

Reinsurance to close premium payable

The reinsurance to close premium is determined on the basis of estimated outstanding liabilities and related claims settlement costs (including claims incurred but not reported) relating to the closed year of account.

The estimate of claims outstanding is assessed on an individual case and class basis, as appropriate, and is based on the estimated ultimate cost of all claims notified but not settled by the balance sheet date, together with the provision for related claims handling costs. It also includes the estimated cost of claims incurred but not reported ('IBNR') at the balance sheet date based on statistical methods.

These methods generally involve projecting from past experience of the development of claims over time to form a view of the likely ultimate claims to be experienced for more recent underwriting, having regard to variations in the business accepted and the underlying terms and conditions. For the most recent years, where a high degree of volatility arises from projections, estimates may be based in part on output from rating and other models of the business accepted and assessments of underwriting conditions. The amount of salvage and subrogation recoveries is separately identified.

The two most critical assumptions as regards claims estimates are that the past is a reasonable predictor of the likely level of claims development and that the rating and other models used for current business are fair reflections of the likely level of ultimate claims to be incurred.

The directors consider that the estimates of gross claims and related reinsurance recoveries are fairly stated on the basis of the information currently available to them. However, the ultimate liability will vary as a result of subsequent information and events and this may result in significant adjustments.

NOTES TO THE ACCOUNTS

continued

2. Accounting Policies *continued*

Bad debt

Bad debts are provided for only where specific information becomes available to suggest a debtor may be unable or unwilling to settle its debts to the syndicate. Specific information may be directly attributed to the debtor company or may be indirect information from a rating agency or other source. The provision is calculated on a case by case basis.

Foreign currency translation

Transactions, other than reinsurance to close, in US Dollars, Canadian Dollars and Euros are translated at the average rates of exchange for each calendar year in which they are booked. Reinsurance to close premiums payable are included in the technical account at relevant average rates applicable when the change occurred or when reserves were first set. The reinsurance to close premiums payable are included in the balance sheet at the closing rate.

Balance sheet assets and liabilities denominated in foreign currencies are translated at the rate of exchange at the balance sheet date or if appropriate at the forward contract rate.

Where Canadian Dollars or Euros are sold or bought relating to the profit or loss of the closed underwriting account after 31 December, any exchange profit or loss arising is reflected in the underwriting account into which the liabilities of that year have been reinsured. Where United States Dollars relating to the profit or loss of a closed underwriting account are bought or sold by the syndicate on behalf of the members on that year, any exchange profit or loss accrues to those members.

The following rates of exchange to Sterling have been used in the preparation of these accounts.

	Year end rate 2011	2011	Average rates during 2010	2009
USD	1.55	1.60	1.55	1.57
CAD	1.58	1.59	1.59	1.78
EUR	1.20	1.15	1.17	1.12

Investments

The syndicate does not hold any investments or derivatives.

Investment return

Investment return comprises all investment income, realised investment gains and losses and movements in unrealised gains and losses, net of investment expenses, charges and interest. The returns on assets arising in a calendar year are apportioned to years of account open during the calendar year in proportion to the average funds available for investment on each year of account.

Allocation of investment return

Investment return is initially recorded in the non-technical account. A transfer is made from the non-technical account to the general business technical account. Investment return has been wholly allocated to the technical account as all investments are generated by insurance related assets.

Operating expenses

All syndicate expenses, including audit fees, are charged to and borne by Syndicate 2791 for which the syndicate is charged a ceding commission of 5% of gross premiums written. Personal expenses (Lloyd's subscriptions and central fund), which are charged to Syndicate 2791 are covered by an overriding commission of 1% of gross premiums written.

Taxation

Under Schedule 19 of the Finance Act 1993 managing agents are not required to deduct basic rate income tax from trading income. In addition, all UK basic rate income tax deducted from syndicate investment income is recoverable by managing agents and consequently the distribution made to members or their members' agents is gross of tax.

No provision has been made for any United States Federal Income Tax payable on underwriting results or investment earnings. Any payments on account made by the syndicate during the year are included in the balance sheet under the heading 'debtors'.

No provision has been made for any overseas tax payable by members on underwriting results.

NOTES TO THE ACCOUNTS

2. Accounting Policies *continued*

Profit commission

Profit commission is charged by the managing agent at a rate of 1.5% of profit subject to the operation of a deficit clause. This is charged to the syndicate as incurred on an earned basis but does not become payable until after the year of account closes.

3. Segmental Analysis

All the syndicate's business, as set out in the technical account, is classified as reinsurance accepted and all premiums were concluded in the UK.

The geographical destination of the reinsurance premiums is the USA.

Other administrative expenses comprise Lloyd's subscriptions, central fund contributions and the ceding commission payable to Syndicate 2791 in accordance with the terms of the contract. All other syndicate expenses, including audit fees, are charged to and borne by Syndicate 2791 for which the syndicate is charged a ceding commission of 5% of gross premiums written. Personal expenses are also charged to Syndicate 2791 but these are covered by an equivalent charge of 1% of gross premiums written.

7. Staff Numbers and Costs

All staff are employed by the managing agent. No recharge of payroll costs or in respect of directors' remuneration is made specifically to the syndicate – all such charges are made to Syndicate 2791 and covered by the ceding commission. Profit related remuneration in respect of all directors and staff is wholly paid and borne by the managing agent.

16. Related Parties

All the syndicate's transactions are with or via Syndicate 2791, which is also managed by the managing agent, MAP.

All business ceded by Syndicate 2791 is accepted on an arm's length basis and the main terms of the reinsurance contract are set out in the Report of the Directors of the Managing Agent.

The managing agent, MAP, is a wholly owned subsidiary of Managing Agency Partners Holdings Limited, the equity of which is 90.1% owned by MAP Equity Limited, a company that is entirely owned by the staff of the managing agency and syndicate.

The directors' interests in the ordinary share capital of MAP Equity Limited, which has an issued share capital of 250,000 £1 shares, at the balance sheet date were as follows:

	A Shares (voting)	B Shares (non-voting)
R K Trubshaw	33,000	–

REPORT OF THE DIRECTORS OF THE MANAGING AGENT

The directors of the managing agent present their report for the year ended 31 December 2011.

The principal activity of the syndicate is that of writing reinsurance business.

This annual report is prepared using the annual basis of accounting as required by the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 ('the 2008 Regulations').

The syndicate commenced underwriting for the 2007 year of account. For all years its business is written by way of a 30% quota share, (except for a 40% quota share in 2009), of all US property catastrophe business (other than terrorism and retrocession business) written by Syndicate 2791. Worldwide business may be written, as long as the predominant exposure is the United States.

The syndicate is charged a 5% ceding commission and an overriding commission of 1% of gross premiums written under the contract, to cover administration expenses, Lloyd's levies and subscriptions borne by Syndicate 2791. The syndicate does not pay any brokerage costs. A profit commission of 15% of any underwriting profit is payable to the managing agent. The syndicate retains all business net for its own account. The maximum exposure appetite is managed to 125% of capacity, after reinstatement premium, in any one of Lloyd's mandated Realistic Disaster Scenarios. To date all exposure has been held net and unreinsured.

During 2011, the syndicate has accepted premiums amounting to £19.0m (2010: £20.3m) and paid ceding commission of £0.9m (2010: £1.0m) and overriding commission of £0.2m (2010: £0.2m to Syndicate 2791). All the syndicate's funds are held by Syndicate 2791 which makes payments of liabilities on the syndicate's behalf. The syndicate has been credited with £0.9m (2010: £1.1m) in respect of interest on funds held by Syndicate 2791 and has been charged £0.02m (2010: £0.02m) in respect of net balances funded by Syndicate 2791. The rates of interest credited on credit balances to the syndicate are those achieved by Syndicate 2791 on its own funds and the rates charged on debit balances are relevant currency six month duration Treasury Bills rates +1.5%.

A Review of the Calendar Year Result

These financial statements are prepared focusing on the calendar year results under UK Generally Accepted Accounting Practice (GAAP) for insurance companies.

The 2011 calendar year produced an annually accounted profit of £6.87m (2010: £16.46m) on earned premiums of £19.2m (2010: £20.5m). All the syndicate's business comprises US property catastrophe risks. The net combined ratio was 69.0% (2010: 24.9%).

There are no non-financial key performance indicators relevant to the specific circumstances of this syndicate.

2011 Overview

Despite no major hurricanes striking the United States, 2011 experienced over US\$20bn of insured tornado/hail losses, by our estimation the worst year since 1974. Although we have pushed out our ultimate loss ratio pick for the 2011 year of account to reflect this unusual activity, the year has still contributed modestly to the annually accounted result, with over half the return coming from prior year improvements.

2012 Trading Conditions

The plethora of international catastrophe events in 2010 and 2011 had a negligible impact on Syndicate 6103. Some new opportunities have arisen on worldwide protections, but most of the improvements have come from repriced regional accounts in the US. Coincidentally, a major third party catastrophe modelling firm has released its latest assessment of Atlantic hurricane risk, which we estimate to be on average 45% more conservative than the previous version, and most importantly within 2% of our own, unchanged internal model. Whereas much of the market, both buyer and seller, is now faced with a more onerous risk assessment, our competitive handicap has now been removed. Demand for cover is up, and pricing has improved accordingly.

The Future

Syndicate 6103 has proved to be a useful, accretive facility for the host Syndicate 2791, and profitable in its own right so far. As long as capital providers are willing, and the technical rate adequacy of the business is maintained, we continue to view the SPS mechanism as an intrinsic part of MAP's portfolio. Our only disappointment has been that, for the last two years, the syndicate has had to cease writing in areas where it has reached its maximum risk appetite, and so missed out on strongly priced business later in the year. Although the syndicate grew modestly for 2012, and the US dollar exchange rate was relaxed to US\$1.61:£1, it is likely this same phenomenon will occur again.

FINANCIAL REPORT

Investment Return

The investment return is represented by the syndicate's share of income earned by Syndicate 2791 on balances (underwriting, non-technical and balance sheet funding) received or paid on Syndicate 6103's behalf. Income receivable or chargeable is calculated monthly on average balances actually received or paid by Syndicate 2791 at relevant rates for each currency, as set out in the reinsurance agreement.

The investment return contributed £0.9m (2010: £1.1m) to the annual result.

The syndicate undertakes no lending of securities and does not undertake exchange rate management.

Currency Translation Differences

Whilst virtually all of the syndicate's assets are held in US Dollars the results are published in Sterling. The result of this is that changes in the £:US Dollar exchange rate can alter the reported Sterling results. However, capital providers receive distributions in US Dollars only, therefore the accounting exchange profit booked has no effect on the currency distributions to capital providers.

The accounting exchange gain for the year is £0.636m (2010: loss £0.272m). This principally reflects the US Dollar strengthening against Sterling from the opening rate of 1.57 to the current year end rate of 1.55.

REPORT OF THE DIRECTORS OF THE MANAGING AGENT

continued

Reinsurance

The syndicate does not purchase any reinsurance protections.

Risk Management

We have established a risk management framework whose primary objective is to protect the syndicate from events which negatively impact current and future returns.

Principal Risks and Uncertainties

Syndicate 6103 accepts business under a funds withheld reinsurance contract with Syndicate 2791. The majority of the principal risks applying to Syndicate 6103 are managed within Syndicate 2791.

Insurance risk

Insurance risk includes the risks that a policy will be written for too low a premium or provide inappropriate cover, that the frequency or severity of insured events will be higher than expected, or that estimates of claims subsequently prove to be insufficient.

Underwriting strategy is agreed by the Board and set out in the Syndicate Business Plan which is submitted to Lloyd's each year. Processes are in place to identify, quantify and manage aggregate exposures and technical prices within each of our underwriting classes. Reinsurance may be purchased, where appropriate to our risk appetite and to reduce the retained financial impact of catastrophic loss. Reserves set are subject to stress testing and independent review.

Credit risk

Credit risk is the risk of default or the inability of one or more of the syndicate's reinsurers or brokers to settle their debts as they fall due. The syndicate has no reinsurance and therefore there is no reinsurance credit risk.

Liquidity risk

This is the risk that the syndicate will not be able to meet its liabilities as they fall due, owing to a shortfall in cash. Liquidity management forms an important part of the financial management practices of the syndicate. Cash flow projections and budgetary controls are maintained and reported upon to the Board.

Market risk

Market risk is the potential adverse financial impact of changes in value of financial instruments caused by fluctuations in foreign currency, interest rates or equity prices. The potential impact of market risk elements is reported to the Board and the potential financial impact of changes in market value is monitored through the ICA process.

Foreign currency exchange risk

We operate from the United Kingdom but all our premiums and claims are settled in currencies other than Sterling. Our reported financial results are denominated in Sterling and are therefore affected by the exchange rate against Sterling of our main currency assets (USD, EUR and CAD). The syndicate will settle its surplus assets in USD as each underwriting year closes or earlier if a solvency transfer is approved. We do not therefore seek to hedge the USD exposure. Other currencies are tracked against Sterling to ensure the amount of exposure is monitored and if needed appropriate action taken.

Operational risk

Operational risk is the potential adverse financial and reputational impact of inadequate or failed internal processes, people and systems or from external events. An internal risk assessment process has been developed to assess the potential impact and probability of certain events and a system of internal controls has been implemented to mitigate the risks. These controls have been monitored by Senior Management and the Board whilst their ongoing effectiveness is validated through both the ongoing risk assessment and internal audit process.

Regulatory risk

The agency is required to comply with the requirements of the Financial Services Authority and Lloyd's. Lloyd's requirements include those imposed on the Lloyd's market by overseas regulators, particularly in respect of US situs business. Regulatory risk is the risk of loss owing to a breach of regulatory requirements or failure to respond to regulatory change. The agency has a compliance officer who monitors regulatory developments and assesses the impact on agency policy. She is supported by two assistants who carry out a compliance monitoring programme.

Reappointment of Auditors

Ernst & Young LLP are deemed to be reappointed as the syndicate's auditors.

Disclosure of Information to the Auditors

So far as each person who was a director of the managing agent at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditor in connection with its report, of which the auditor is unaware. Having made enquiries of fellow directors of the agency and the syndicate's auditor, each director has taken all the steps that he/she is obliged to take as a director in order to make himself/herself aware of any relevant audit information and to establish that the auditor is aware of that information.

Annual General Meeting

As permitted under the Syndicate Meetings (Amendment No. 1) Byelaw (No. 18 of 2000) MAP does not propose holding a Syndicate Annual General Meeting of the members of the Syndicate.

Members may object to this proposal or the intention to reappoint the auditors within 21 days of the issue of these accounts. Any such objection should be addressed to B S McAuley, Compliance Director at the registered office of Managing Agency Partners Limited.

STATEMENT OF MANAGING AGENT'S RESPONSIBILITIES

The managing agent is responsible for preparing the syndicate annual accounts in accordance with applicable law and regulations.

The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 require the managing agent to prepare syndicate annual accounts at 31 December each year in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). The annual accounts are required by law to give a true and fair view of the state of affairs of the syndicate as at that date and of its profit or loss for that year.

In preparing the syndicate annual accounts, the managing agent is required to:

1. select suitable accounting policies which are applied consistently;
2. make judgements and estimates that are reasonable and prudent;
3. state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the annual accounts; and
4. prepare the annual accounts on the basis that the syndicate will continue to write future business unless it is inappropriate to presume that the syndicate will do so.

The managing agent is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the syndicate and enable it to ensure that the syndicate annual accounts comply with the 2008 Regulations. It is also responsible for safeguarding the assets of the syndicate and hence for taking reasonable steps for prevention and detection of fraud and other irregularities.

The managing agent is responsible for the maintenance and integrity of the corporate and financial information included on the business' website. Legislation in the United Kingdom governing the preparation and dissemination of annual accounts may differ from legislation in other jurisdictions.

INDEPENDENT AUDITORS' REPORT

to the Members of Syndicate 6103

We have audited the syndicate annual accounts of Syndicate 6103 for the year ended 31 December 2011 which comprise the Profit and Loss Account, the Statement of Total Recognised Gains and Losses, the Balance Sheet, the Cash Flow Statement and the related notes 1 to 20. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the syndicate's members, as a body, in accordance with The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008. Our audit work has been undertaken so that we might state to the syndicate's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the syndicate's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective Responsibilities of the Managing Agent and the Auditor

As explained more fully in the Statement of Managing Agent's Responsibilities set out on page 25, the managing agent is responsible for the preparation of syndicate annual accounts which give a true and fair view. Our responsibility is to audit and express an opinion on the syndicate annual accounts in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the Audit of the Syndicate Annual Accounts

An audit involves obtaining evidence about the amounts and disclosures in the annual accounts sufficient to give reasonable assurance that the annual accounts are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the syndicate's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the managing agent; and the overall presentation of the annual accounts. In addition, we read all the financial and non-financial information in the Syndicate Annual Report and Accounts to identify material inconsistencies with the audited syndicate annual accounts. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on Syndicate Annual Accounts

In our opinion the annual accounts:

- give a true and fair view of the syndicate's affairs as at 31 December 2011 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008.

Opinion on Other Matter Prescribed by The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts Regulations 2008

In our opinion the information given in the Managing Agent's Report for the financial year in which the annual accounts are prepared is consistent with the annual accounts.

Matters on Which We Are Required to Report by Exception

We have nothing to report in respect of the following matters where The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 requires us to report to you, if in our opinion:

- the managing agent in respect of the syndicate has not kept adequate accounting records; or
- the syndicate annual accounts are not in agreement with the accounting records; or
- we have not received all the information and explanations we require for our audit.

NOTES TO THE ACCOUNTS

for the year ended 31 December 2011

1. Basis of Preparation

These financial statements have been prepared in accordance with Regulation 5 of the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008, and applicable Accounting Standards in the United Kingdom and comply with the Statement of Recommended Practice on Accounting for Insurance Business issued in December 2005 (as amended in December 2006) by the Association of British Insurers.

The result for the year is determined on the annual basis of accounting in accordance with UK GAAP.

2. Accounting Policies

Premiums written

Premiums written comprise premiums on contracts incepted during the financial year as well as adjustments made in the year to premiums written in prior accounting periods. Premiums exclude taxes and duties levied on them. Estimates are made for pipeline premiums, representing amounts due to the syndicate not yet notified. Differences between such estimates and actual amounts will be recorded in the period in which the actual amounts are determined.

Unearned gross premiums

Written premiums are recognised evenly over the term of the contract for those contracts where the incidence of risk does not vary over the term. Contracts where the incidence of risk differs over the term are earned based on the risk profile of the policy. Unearned premiums represent the proportion of premiums written in the year that relate to unexpired terms of policies in force at the balance sheet date, calculated on the basis of established earnings patterns or time apportionment as appropriate.

Acquisition costs

The syndicate is not charged with acquisition costs and has no deferred acquisition costs.

Reinsurance premium ceded

The syndicate has no reinsurance protection.

Claims provisions

Claims paid comprise claims and claims handling expenses paid during the period.

Gross claims incurred comprise the estimated cost of all claims occurring during the year, whether reported or not, including related direct and indirect claims handling costs and adjustments to claims outstanding from previous years. The provision for claims outstanding is assessed on an individual case and class basis, as appropriate, and is based on the estimated ultimate cost of all claims notified but not settled by the balance sheet date, together with the provision for related claims handling costs. The provision also includes the estimated cost of claims incurred but not reported ('IBNR') at the balance sheet date based on statistical methods.

These methods generally involve projecting from past experience of the development of claims over time to form a view of the likely ultimate claims to be experienced for more recent underwriting, having regard to variations in the business accepted and the underlying terms and conditions. For the most recent years, where a high degree of volatility arises from projections, estimates may be based in part on output from rating and other models of the business accepted and assessments of underwriting conditions. The amount of salvage and subrogation recoveries is separately identified and, where material, reported as an asset.

The two most critical assumptions as regards claims provisions are that the past is a reasonable predictor of the likely level of claims development and that the rating and other models used for current business are fair reflections of the likely level of ultimate claims to be incurred.

The directors consider that the provisions for gross claims are fairly stated on the basis of the information currently available to them. However, the ultimate liability will vary as a result of subsequent information and events and this may result in significant adjustments to the amounts provided. Adjustments to the amounts of claims provisions established in prior years are reflected in the financial statements for the period in which the adjustments are made. The methods used, and the estimates made, are reviewed regularly.

Bad debt

Bad debts are provided for only where specific information becomes available to suggest a debtor may be unable or unwilling to settle its debts to the syndicate. Specific information may be directly attributed to the debtor company or may be indirect information from a rating agency or other source. The provision is calculated on a case by case basis.

NOTES TO THE ACCOUNTS

continued

2. Accounting Policies *continued*

Unexpired risks provision

A provision for unexpired risks is made where claims and related expenses arising after the end of the financial period in respect of contracts concluded before that date may exceed the unearned premiums and premiums receivable under these contracts, after the deduction of any acquisition costs deferred.

The provision for unexpired risks is calculated by reference to classes of business which are managed together, after taking into account relevant future investment return. The provision for unexpired risks is included in technical provisions in the balance sheet.

Foreign currency translation

Transactions in US Dollars, Canadian Dollars and Euros are translated at the average rates of exchange for the period. Underwriting transactions denominated in other foreign currencies are included at the rate of exchange ruling at the date the transaction is processed.

In accordance with SSAP20, Foreign Currency Translation, assets and liabilities denominated in foreign currencies are translated at the rate of exchange at the balance sheet date or if appropriate at the forward contract rate.

All exchange differences arising on retranslation of opening balances and between average and year-end rates are included in the statement of total recognised gains and losses. All other exchange differences are dealt with in the technical account and included within operating expenses.

The following rates of exchange have been used in the preparation of these accounts.

	2011		2010	
	Year end	Average	Year end	Average
USD	1.55	1.60	1.57	1.55
CAD	1.58	1.59	1.56	1.59
EUR	1.20	1.15	1.17	1.17

Investments

The syndicate does not hold any investments or derivatives.

Investment return

Investment return comprises an allocation, calculated on the monthly average of the Total Funded Paid Experience balance (equivalent to the premiums received, claims paid, ceding commission, interest expenses and income). This return is equal to the rate of investment return achieved by Syndicate 2791 on its invested funds during the relevant month and is equal to the gross return on its Credit for Reinsurance Fund for USD denominated balances. Interest on other currency positive balances is credited at rates achieved by Syndicate 2791 on those currencies for the relevant month.

If the average balance is negative, an interest expense is calculated on the monthly average at the relevant currency six month duration Treasury Bill rate plus 1.5%. The whole of the return is treated as investment income.

Allocation of investment return

Investment return is initially recorded in the non-technical account. A transfer is made from the non-technical account to the general business technical account. Investment return has been wholly allocated to the technical account as all investments relate to the technical account.

Taxation

Under Schedule 19 of the Finance Act 1993 managing agents are not required to deduct basic rate income tax from trading income. In addition, all UK basic rate income tax deducted from syndicate investment income is recoverable by managing agents and consequently the distribution made to members or their members' agents is gross of tax.

No provision has been made for any United States Federal Income Tax payable on underwriting results or investment earnings. Any payments on account made by the syndicate during the year are included in the balance sheet under the heading 'other debtors'.

No provision has been made for any overseas tax payable by members on underwriting results.

NOTES TO THE ACCOUNTS

continued

2. Accounting Policies *continued*

Profit commission

Profit commission is charged by the managing agent at a rate of 1.5%. This is charged to the syndicate as incurred on an earned basis but does not become payable until after the appropriate year of account closes, normally at 36 months.

3. Segmental Analysis

All the syndicate's business, as set out in the technical account, is classified as reinsurance accepted and all premiums were concluded in the UK.

The geographical situs of the risks covered is principally the USA.

4. Claims Outstanding

	2011 £'000	2010 £'000
Gross outstanding claims	2,766	2,270
Provision for gross claims incurred but not reported	3,762	5,961
Unallocated loss and loss adjustment expenses	–	–
Reserves	6,528	8,231

5. Net Operating Expenses

All syndicate expenses, including audit fees, are charged to and borne by Syndicate 2791 for which the syndicate is charged a ceding commission of 5% of gross premiums written. Personal expenses (Lloyd's subscriptions and central fund), which are charged to Syndicate 2791, are covered by an overriding commission of 1% of gross premiums written.

A profit commission of 1.5% of profits for each Underwriting Year of Account is payable to the managing agent.

6. Staff Numbers and Costs

All staff are employed by the managing agent. No recharge of payroll costs for staff or in respect of directors' remuneration is made specifically to the syndicate – all such charges are made to Syndicate 2791 and covered by the ceding commission as set out in note 5 above.

Any profit related remuneration in respect of all directors and staff is wholly paid and borne by the managing agent.

17. Related Parties *continued*

The directors' interests in the ordinary share capital of MAP Equity Limited, which has an issued share capital of 250,000 £1 shares, during 2011, were as follows:

	A Shares (voting)	A Shares (non-voting)
R K Trubshaw	33,000	–
A Kong	22,000	–
J D Denoon Duncan	–	8,333
B S McAuley	–	13,500
C J Smelt	5,000	2,500
R J Sumner	–	10,000

Messrs. Shipley, Denoon Duncan, Kong, Trubshaw, Sumner, Smelt and Ms McAuley, or their related parties, participate on Syndicate 6103 via a dedicated, but unaligned to the managing agent, corporate member, Nomina No. 208 LLP. Nomina No. 208 LLP commenced underwriting on the 2007 year of account. For the 2011 year of account Nomina No. 208 LLP provided £1.470m (2010: £0.470m) of capacity on Syndicate 6103 representing 5.1% (2010: 1.4%) of capacity. MAP has no direct or indirect interest in Nomina No. 208 LLP.

There are no other transactions or arrangements requiring disclosure.

18. Funds at Lloyd's

Every member is required to hold capital at Lloyd's which is held in trust and known as Funds at Lloyd's (FAL). These funds are intended primarily to cover circumstances where syndicate assets prove insufficient to meet participating members' underwriting liabilities.

The level of FAL that Lloyd's requires a member to maintain is determined by Lloyd's based on FSA requirements and resource criteria. FAL has regard to a number of factors including the nature and amount of risk to be underwritten by the member and the assessment of the reserving risk in respect of business that has been underwritten. Since FAL is not under the management of the managing agent, no amount has been shown in these financial statements by way of such capital resources. However, the managing agent is able to make a call on the members' FAL to meet liquidity requirements or to settled losses.

19. Post Balance Sheet Event

In accordance with the reinsurance contract with Syndicate 2791, the 2009 Year of Account will be commuted and an RITC effected with Syndicate 2791 and the reserves carried for the 2009 Year of Accounting (amounting to £34,000) transferred to that syndicate in 2012.

20. Off-Balance Sheet Items

The Syndicate has not been party to any arrangement which is not reflected in its balance sheet.
